PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of hands-on experience building scalable web applications using MERN and Python/Django. Proven track record of delivering production-grade e-commerce platforms, ERP integrations, and real-time dashboards. Specialized in third-party integrations and performance optimization, improving system efficiency and reducing manual processes.

EXPERIENCE

• Conversion Pro LLP

Associate Full Stack Developer

Dec 2024 – Present

Pune, Maharashtra

- Developing a Node.js-based EDI integration platform to process SPS Commerce purchase orders, with early implementations reducing manual data handling and improving workflow efficiency.
- Engineered a MERN-based real-time reporting dashboard, reducing reporting turnaround time by 50% and improving operational visibility.
- Integrated Shopify with Zoho CRM, Zoho Inventory, and Zoho Books, automating order, invoice, and inventory workflows and eliminating 70% of manual intervention.
- Contributed to ERP-integrated e-commerce platform redevelopment, improving system scalability and supporting 2x higher transaction volume.
- Implemented and customized a Shopify B2B e-commerce platform, improving performance and reducing page load time by 30%.
- Automated course management workflows via Arlo integration, reducing administrative effort by 40%
- Optimized application performance, reducing page load time by 30% and improving user experience across B2B e-commerce platforms.
- Delivered multiple WordPress-based CMS solutions, ensuring high-quality releases and on-time delivery across client projects.

• Adityapur Auto Cluster

Web Development Intern

Feb 2023 – Apr 2023

Jamshedpur, Jharkhand

- Built a music player website using JavaScript and Bootstrap, enhancing interactivity and responsive design.
- Gained hands-on experience with full-stack development using HTML, CSS, JavaScript, Python, and Django.
- Designed and implemented an e-learning platform using Django, demonstrating back-end development capabilities.

PERSONAL PROJECTS

• Shop Smartly

Tools: MERN Stack (MongoDB, Express.js, React.js, Node.js)

Live Demo ↗

- Built a responsive e-commerce platform with JWT authentication, Redux state management, and Braintree payment gateway integration.
- Designed a smooth and secure checkout flow, ensuring seamless user experience across devices.

• Music Platform (Sangeet)

Tools: JavaScript, jQuery, Bootstrap

Live Demo ↗

- Designed a dynamic music player website with interactive UI and Formspre integration for user feedback.
- Demonstrated full-stack deployment during internship.
